DETAILED ACTION

Allowable Subject Matter

Claims 1-5 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 5, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a phase shifting wavefront superimposition method comprising superimposing reference and object wavefronts for respective locations on an object being measured, determining an object-induced phase difference between the wavefronts, determining phase errors in the superimposed wavefronts by means of a spatial superimposition pattern evaluation, and determining the object-induced phase difference by correctively utilizing the determined phase errors, in combination with the rest of the limitations of the above claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Lyons whose telephone number is 571-272-2420.

The examiner can normally be reached on Monday through Friday.
